Greetings

Hyderabad, the state capital of Telangana, the most "Liveable City in India" was ranked number one under the category 'Top 10 Aerospace Cities in Cost Effectiveness'.

The industry friendly policy framework, infrastructure availability and access to human capital make Hyderabad a preferred business destination.

Apart from being a global hub for Information Technology sector, the state of Telangana has a large number of manufacturing units in the life sciences, pharmaceutical, food processing, non-metallic minerals, plastics, electrical equipment and many other sectors.

Future City, an initiative by Govt. of Telangana will be India's first Net Zero Carbon city, which will become a hub for Artificial Intelligence, medical tourism, sports, software and pharma industry. With new progressive Govt. in Andhra Pradesh, the neighboring state, the plastics industry among the others is expected to attract huge investments in near future.

I hereby invite all the stakeholders of plastics industry to join us at HIPLEX 2026!

Meela Jayadev

Convener, HIPLEX 2026
